

FOR IMMEDIATE RELEASE

**THE GORES GROUP PORTFOLIO COMPANY MERIDIAN MEDICAL
MANAGEMENT ACQUIRES ORIGIN HEALTHCARE SOLUTIONS**

LOS ANGELES, DECEMBER 11, 2014 -- The Gores Group, a leading Los Angeles-based investment firm, announced that its portfolio company, Meridian Medical Management, has completed the acquisition of Origin Healthcare Solutions. Terms of the transaction, which was led by The Gores Small Capitalization Partners, were not disclosed.

Origin, a provider of revenue cycle management (RCM) and analytics solutions, augments Meridian's own solutions with a broader range of supported technology platforms and added depth around business intelligence and analytics for healthcare providers. The combination of Meridian and Origin provides over 40,000 healthcare providers nationwide with a comprehensive set of software and services, including full RCM, EHR, medical coding, technology implementation and support as well as in-depth business intelligence.

"Origin is a critical addition to the Meridian portfolio, providing a comprehensive range of revenue cycle and analytics services to our clients through more strategic clinical and financial reporting and business insights," said Rob Gontarek, CEO of Meridian. "This enables our combined client base to not only reap the expertise of proven RCM technology but also better manage population health and make use of big data—both of which are critical to business and financial success as healthcare continues to evolve."

"With a clear vision for the future of healthcare, we are excited to continue to invest in Meridian as they provide the right solutions for healthcare providers' long-term business success," said Victor C. Otley, Managing Director for The Gores Group. "Origin's clients also win big in this equation as they gain access to Meridian's in-depth expertise and knowledge of dealing with some of healthcare's most complex revenue cycle and integration challenges."
